arches.

**LIMMER ASPHALTE.—BUILDERS, CON-**  
TRACTORS, etc., interested in a NEW ASPHALT  
from a mine in Hanover, on asphalt, is found superior  
quality to that from Berck, or to any other Asphalt well known  
in Europe; and from the locality of the mine can be shipped  
from Bremen on lower terms than any other genuine Asphalt  
available. For samples, and the complete description of the  
BERCK, see Mark line, where full particulars will be found  
to parties desirous of purchasing the raw material direct from the  
mine, at a stated price, free on board at Bremen. The factories  
all of the city of Hanover are now laid down with this Asphalt  
and the asphalt is produced by the company for the strong heat  
of summer, or the severe cold of winter, and guaranteed for several  
years.

**PRIZE MEDAL FOR TERRA COTTA** to  
**M. H. BLANCHARD**, Chief of Condo's (original) Work-  
 ing award for quality of material and workmanship.  
 M. H. BLANCHARD, the attraction of the 1917, Century  
 Architects, Builders, &c. to this invaluable and irreplaceable  
 material that has been and is now adopted by our eminent Architects  
 and others to the adornment of our noblest buildings, in-  
 fers applicable to groups, saloons, friezes, capitals, panelings, etc.  
 fides, terminals, Tondos and other chimney-shafts, balustrades, etc.  
 fluting, and every description of architectural embellishment, a  
 prism, etc., deriving competition.

**TERRA COTTA AND SCAGLIOLA**  
Manufactured by J. M. BLANCHFIELD, Mill Wall, London  
of France, U.S.A., Italy, Spain, Ireland, Scotland, Portugal,  
Austria, Russia, Prussia, Belgium, Holland, Germany, the  
United States, Sweden, and all ornamental work required to man-  
ufacture floor and wall tiles, and other articles, which are  
burned and fired without cracking or changing colour, may be had at  
nearly the same cost as casting in cement.  
Terra cotta is more durable than iron, granite, marble, or stone,  
and may be made of black, red, and light green colours of any  
shade. It is also made in imitation of marble, and is more  
durable than marble, and architects can have their own choice of  
stone or marble, and fire in this material without mauling and the chance  
of cracking, and it is made in all the latest designs, and is  
copied from the hands of the artist.

**EXHIBITION PRIZE MEDAL**  
**REGISTERED PATENT** has to draw the attention  
 Architects, Builders, and others to their **PATENT RIGHT**  
 in this connection, differs essentially from all other artistic  
 Social property. It is not a mere matter of taste, but a matter of  
 character, texture, and appearance. It is made to resemble every  
 kind of natural stone, of plumbago, from the finest marble to the  
 coarsest granite, and is made to resemble every kind of natural  
 property, without being liable to any of their defects. It is espe-  
 cially applicable to all kinds of architectural decorations and  
 ornaments, and is made to resemble every kind of natural  
 substance. It is also applicable to all varieties of plain and ornamental  
 work. In price it is far below the cost of any natural product  
 and is made to resemble every kind of natural property.  
 (Copies of *Patent*, *Manual*, or other works of Art can be procured  
 in the *Patent Office* or *Patent Office* of *Patent Office*.)

**IMPORTANT TO WATER COMPANIES, MANUFACTURERS AND THE PUBLIC.**

RAYMOND and Farness have called the attention of Water Companies, Manufacturers, and others to their **PATENT STONE FILTERING SLABS**, which are capable of filtering from 100 to 200 gallons of water per superficial foot per day, with a head of water varying from 15 to 20 feet. These slabs are made of a porous material, and consequently can be adapted to any cistern, tank, or reservoir. By a simple prearranged arrangement, they are prevented from being choked or impeded in their action. Prices for superficial foot will be supplied on application. Descriptions of Filters will be supplied on application.

**IMPORTANT TO BRICKMAKERS AND COSTMASTERS.**  
 Ransome and Parsons are also the Proprietors of  
**HALL'S PATENT BRICK MAKING MACHINE.**  
 capable of moulding Jane's Bricks per day and upwards, which are  
 superior to those manufactured by hand, and are produced at  
 considerably less cost.—Communications to be addressed to the  
 Proprietors, MESSRS. RANSOME and PARSONS, Flint-Wharf  
 Grimsby.

**STIRLING'S BELVEDERE SLATE WORKS**  
Belvedere-road, Lambeth.— reduced list of prices of the  
best WELSH SLATE SLABS, placed both there, will be sent on  
application (on post paid) being made, and including a postage stamp.  
The prices are under those advertised for inferior slates.

**THE F.M.LICO SLATE WORKS**  
Patronized by Royalties the Heads of the Nobility, the Clergy,  
Archbishops of Bishops, Builders, Railways, Commissions, and  
Public generally.—**MANUFACTURED SLATE**—with  
standing the vile imitations and infringements of his patent the  
as a stern plea! continues to grow in favour with the public, because  
low—strong, more durable, and very much cheaper than marble—  
Price lists and a sheet of drawings, sent to any part of the Kingdom  
—Glasgow, Fife, Perth, Dundee and London, Glasgow, Wigan, Colne,  
Fitzing, and other parts, of a variety of plain Slate Work, at prices  
that defy competition.

**VALENTINE SLATE SLABS.**—The Valentine Slate Company invites attention to their Slabs now supplied of very large dimensions and of superior quality. They have been used at the British Museum, National Gallery, Bethlem Hospital, various lunatic asylums, the Ordnance Works, Model Prison, Fort-Montville and other penitentiaries, Mailing Floors in Bedford Row and Hertfordshire, Byreside, the Rose Stand at Brighton, Fort St. Mearns, Barbican, the Royal Albert Hall, the Queen's Theatre, the Free Press, the Wharf, Millbank and also the Works of Messrs. **GEORGE and THOMAS EARLE.**  
CEMENT MANUFACTURERS' HILL.  
Light and Dark cements to any make.  
Also Manufacturers of PLASTER, MARBLE, &c.  
Importers of MARBLE and PAVEMENTS.  
Dealers in Slates, Glazes, Hair, Whiting, &c.

**MEDINA ROMAN CEMENT.**—The material of which the cement is made is obtained from the Isle of Portland, where it has been subjected to the most severe tests, and is much better adapted to engineering works than the ordinary Portland cement, which sets and hardens under water. It has been long used at Dover, and is now being employed by the Admiralty at Dover and other ports, to unite the concrete piers of the Tubaer Bridge at Bristol. It is also used for the construction of the Channel Tunnel, and is the best material for the purpose. The work extends 30 feet into the sea, and is exposed to the most violent gales of the Channel, in a position where every stone is liable to be struck by the waves. The cement is sold by the tons at the following prices:—  
CHALK, FLINT AND IRON. See Elms, London; or West  
Medina Mill, London.  
Agents for Northern place, & L. FLORES, American Wharf

**PARIAN CEMENT** for internal use, to be  
PAINTED IS A FEW HOURS AND VAPORISES  
WITHIN A COUPLE OF DAYS—CHARLES FRANCIS and  
SONS, Paternoster, Fine Arts, London

**PORTLAND CEMENT**, in Casks of Four  
Imperial Hhds. QUANTITY, NOT WEIGHT. **MAKING**  
**THE STANDARD**—**CHAR FRANCIS and SONS**, **Common**  
Works, Nine Elms, London.

**PORTLAND CEMENT.—JAMES WESTON**  
 Having commenced manufacturing the above Cement, he is  
 to inform the trade in general that he can supply them with any  
 quantity they may require, either at his Works, or Mill wall, Poplar  
 St. Andrew's Wharf, East-street, Blackfriars; or Middle Row, St  
 Paul's, Westminster, Manufacture of Roman, Lion, and Black  
 Cements, French and English Plaster, &c.

## PORTLAND CEMENT—CHARLES

MICHAELSON has the greatest confidence in introduced to the trade for its superior strength and quality in demand never before obtained in Portland Cement. Its cement extraordinary strength, quality and the action of frost and heat and is more durable than any other cement; damp and vegetable, bare ground, and with which the cement is made in proper damp it is composed of first class of the day for work where all the above qualities are required. The action of frost and heat and is more durable than any other cement can be, and contrary to the statements put forth by others who have hitherto had the monopoly. Manufactured by the Portland Cement Co. of Portland, Me. A very fine white cement, all sorts of the kind from per bush or yard, at a reasonable price for the trade.

**PATENT PORTLAND AND ROMAN CEMENTS** — WINDFELD, BELL, and CO. of New York, N. Y., having now completed some heavy contracts, are prepared to furnish orders to any extent for either of the above cements, as they are quite prepared to prove beyond any doubt the superior quality of the same. They are also prepared to furnish highly respectable references as to the quality of the cements they have been successfully used. Orders addressed to their Works will be punctually attended to, and terms sent. Where quantities are used a corresponding price will be made. — Agent at New York: **MR. ORRIDGE SHARP & SONS, 100 Nassau Street.**

**BRICKS! BRICKS!! BRICKS!!!**  
To save space and better writing to the numerous requesters, L. DAVIS makes this mention to acquaint his friends that his Commerce Blocks and Place are all sold, he has only on hand about one million Woodstock, and some others.  
L. DAVIS is preparing for a large make this year, and is ready to treat with caution for any quantity in reason at a price to be agreed, and thus prevent disappointment and uncertainty.  
Flumsted park Street Hotel near the Royal Arsenal Woodstock.

**BRICKS for SALE.**—200,000 Clamp at 23s. and Sevenue 1/2 in at 24s. 6d. per Thousand, delivered in trucks at the Tonbridge Railway Station, Kent.—Apply to J. DIGGLE, Norton-croft, Surrey.

**GUTTA PERCHA CURTAIN and CORNICE**  
RINGS—These Rings have been much approved by the Faculty, particularly for nervous and aged patients. Owing to the peculiar properties of Gutta Percha, these rings do not make a noise when drawn along the pole of rod. The following sizes may be had, either with or without loops :—Rings; 1 inch diameter 10 inch distan. 8 inch distan. 6 inch distan. 5 inch distan. 4 inch distan.

BUILDING, &c. manufactured by the  
 GUTTA PERCHA COMPANY.  
 (Patented). 12, Wharf-road, City-road, London

**THE LONDON PARQUETRY** beg to call attention of Architects and Builders to the various designs and patterns of Parquet Floors and Pavements by the introduction of **PARQUET FLOORS AND BUCKERS**, which are daily increasing in use, to the satisfaction of the most eminent architects in Great Britain. Parquet Floors are now laid in all the principal mansions, and in many of the squares and parks. Parquet Borders, in rich designs and in every Wood to be so prepared for it—Specimens and Designs at the Architectural Exhibition, the Lyceum Rooms, Regent-street and at the London Parquetry, a Whitechapel-street.
